482-S2575 Dulux[®] AUTOSOLV[®] GMH BLACK spraypak

Product Name:

482-S2551 Dulux[®] Autosolv[®] GMH Black Spraypak

Product Description:

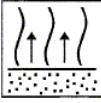

Dulux[®] Autosolv[®] GMH Black Spraypak is a single pack product that is ready for use. It is a fast drying lacquer that may be used in the coating of automotive underbodies. Previously painted underbodies must be thoroughly cleaned and in a good condition prior to application.

Application guide:

Before spraying: Shake can for at least 2 minutes or until the mixing ball rattles inside the can. For best results, avoid spraying in low temperatures (less than 15°C) or high humidity.

During spraying: Hold the can upright 20-25 cm from the surface. To ensure compatibility, test spray on an inconspicuous area. Use smooth, even strokes parallel to the surface. Apply several light mist coats rather than 1 heavy coat to avoid runs and sags.

After spraying: Prevent blocking by turning can upside down and spraying until clear gas emerges. Wipe the nozzle clean. Clean up overspray while still wet with Dulux[®] General Purpose thinner.

	Application	Apply 2-3 even coats
	Air Flash	5 minutes air flash between coats
	Drying	25-30 mins @ 25°C
